Discover the difference DreamWear can make

DreamWear is a sleep apnea mask that
was radically redesigned with patient
comfort top-of-mind

- 1 **Minimal design**
means no more putting up with
bulky, uncomfortable masks
- 2 **Top-of-the-head tubing**
keeps the hose out of the way,
allowing you to sleep in any position
- 3 **Unique airflow method**
enables airflow through the frame instead
of directly to the mask cushion
- 4 **Innovative design prevents red marks,
discomfort, and irritation on the nose bridge⁵**
because the mask cushion sits under the
nose rather than on it
- 5 **Three unique cushion options**
make it easy to find your
personalized fit

No matter which cushion you
choose, DreamWear is the closest
thing to **wearing nothing at all.**¹⁻³
